

Terrorism is the illegal occupation of Palestine

The Head of the General Authority of Civil Affairs and Fatah Central Committee member, Minister Hussein AlSheikh, said in a tweet that the occupation is the ugliest form of terrorism and not the establishment of a Palestinian state in accordance with international legitimacy.

AlSheikh posted on Twitter: “the continuation of the occupation of a land and people who have the historical and natural right to live in freedom, dignity, and independence is the real challenge to legitimacy. We are confident that this occupation will not last, and history will not be drawn by colonizers.”
