Al-Sheikh met with the head of Canada’s representative office to the State of Palestine

Today, I discussed with the head of Canada’s representative office to the State of Palestine, Ambassador David Da Silva, and his accompanying delegation, the latest political developments on the Palestinian issue at all levels, and the dangerous developments taking place in the occupied Palestinian territories.

And put it in the form of a dangerous Israeli escalation, stressing the need to stop all unilateral measures taken by Israel.

Ambassador Da Silva affirmed his country’s position in support of the Palestinian people in determining their fate according to the resolutions of international legitimacy and in accordance with the two-state solution, stressing his country’s continuation in providing support to the Palestinian people through development and economic projects.
