

Al-Sheikh discusses with Safadi the joint effort to stop the Israeli aggression against Jenin and its camp

An urgent call took place this morning between me and His Excellency the Jordanian Foreign Minister, Ayman Safadi, and we discussed the development of the situation in Jenin and the joint effort at the Arab and international levels to stop the Israeli aggression against Jenin and its camp.

This continuous aggression against our people, which will drag the region into a spiral of violence and instability.
