Al-Sheikh received the representative of the European Union to the State of Palestine

Today, Wednesday, I received the representative of the European Union to the State of Palestine, Sven Kuhn von Burgsdorff.

I briefed him on the latest political developments in the Palestinian arena. And I demanded that the European position take positive steps forward, especially the recognition of the State of Palestine, as its purely political and it preserves the two-state solution, which is dying daily in light of the Israeli escalatory measures, especially the settlements.

I wished Mr. Burgsdorff success in his next endeavor and thanked him for his positions in support of the Palestinian cause and his work in the service of the Palestinian people. In turn, the representative thanked the efforts exerted to facilitate the work of the European Union and the continuous support, stressing the continuation of the partnership in working with the Palestinian Authority to serve the Palestinian people.
