Al Sheikh: The Israeli government is pushing the region to explode by protecting the settlers' rampage.

Ramallah, 25 June 2025 – In a statement issued on Wednesday, Palestinian Vice President Hussein Al-Sheikh condemned the continued settler violence and rampage under the protection of the occupation army, and the continued commission of crimes against Palestinian towns and villages by the hands of settlers.

Al Sheikh pointed out that these racist acts are carried out by a political decision of the Israeli government, which will lead to an explosion in the region.

Al Sheikh called on the international community to intervene urgently to protect the Palestinian people from these systematic crimes.
