“The Secretary of the Executive Committee of the Palestine Liberation Organization, Hussein Al-Sheikh, told Al-Hurra News about the Cabinet’s discussion of whether or not to provide facilities for the Palestinians.

He said that the Israeli government is a racist government that is trying to beautify its image with steps that are not serious, adding that whoever besieges the authority and seeks

to weaken and undermine it , is the government of Israel.

Al-Sheikh said that the problem of the Palestinian people lies in the occupation, which must end and not beautify its image.

Al-Sheikh called on the American administration to put forward a creative political initiative based on international legitimacy and signed agreements, and to create a political horizon that leads to serious negotiations to end the Israeli occupation.

Al-Sheikh told Al-Hurra that during his recent meeting with the US Deputy Assistant Secretary of State for Palestinian-Israeli Affairs, Andrew Miller, he told DAS that what is required of the US administration is to exert serious and effective pressure to force Israel to stop all its unilateral measures, and this is what the Israeli government signed on in Aqaba and Sharm el-Sheikh and repudiated it.

The Sheikh also called on the United States to classify the Jewish organizations that call for and practice killing against the Palestinians as terrorist organizations and to include them on the lists of international terrorism.”

Today, I received an American delegation headed by Deputy Assistant Secretary of State Mr. Andrew Miller.

I briefed their delegation on the political developments, and asked them to put pressure on the Israeli government to stop all unilateral measures and find a political horizon that leads to ending the occupation and to implement international legitimacy.

I have also emphasized the Israeli side's non-compliance with the outputs of Aqaba and Sharm el-Sheikh and their continuation of the settlement policy, home demolitions and displacement, which undermines the two-state solution, which is one of the principles of the current US administration.

The Palestinian-American bilateral issues were discussed, and how to bypass the unfair laws against the Palestinians in the US Congress.

There was also talk about the financial crisis of the Palestinian Authority in light of the cessation of US support and the continuation of Israeli deductions for the PA's funds.

In turn, Mr. Miller expressed the necessity of resuming the strategic dialogue with the US administration and working to resolve outstanding bilateral issues, and praised the Palestinian efforts exerted to stabilize the region.

The meeting was attended by Deputy Prime Minister, Mr. Nabil Abu Irdeneh on the Palestinian side.

We welcome the decision of the Portuguese Parliament, which recognizes the catastrophe that befell the Palestinian people in 1948, as a step towards recognizing Palestinian rights.

We call on all European countries to recognize the State of Palestine on the borders of June 4, 1967, to protect the two-state solution in the face of the policy of settlement,

transfer and apartheid practiced by the occupation government,  
which is murdering the two-state solution.
